FSTC Food Science and Technology

GENE Genetics

HORT Horticulture

NUTR Nutritional Sciences

PLPA Plant and Environmental Social Science

POSC Poultry Science

RPTS Recreation, Park and Tourism Sciences

RENH Renewable Natural Resources

SCSC Soil and Crop Sciences

WFSC Wildlife and Fisheries Sciences

MINORS

A minor is a concentration of courses that focus on a single area or an interdisciplinary perspective as developed by the department or program that offers the minor (TAMU, 2015). Coursework consists of 15-18 hours with a minimum of 6 in residence at the 300-400 level.

All minors are available at the following website: <http://registrar.tamu.edu/forms/UniversityApprovedMinors.pdf>. For specific information, please visit the departmental website, speak with the departmental advisor, and consult the TAMU Catalog.

ALED students must declare a minor by the end of their second semester at TAMU. The academic advisor in the major-granting department will add the minor for the student. In some cases, approval by the advisor of the minor-granting department is required before the minor is added by the advisor in the student's major. A minor is displayed on the transcript after graduation but not displayed on the diploma.

UNIVERSITY CORE CURRICULUM

For all UCC (University Core Curriculum) requirements and electives, use the current Texas A&M University Catalog available at <http://core.tamu.edu>.
